

Dear FCC:

It has come to my attention that K-Love a local ministry FM Station could be taken of the air because LPFM will take over local translator systems in the area leaving local residents without a K-LOVE signal.

As a supporter and a devoted listener of KLOVE, I want to voice my objection to this type of transaction. If this transaction takes place, it will be devastating not only to my family but those in the community who faithfully listens to K-LOVE.

I listen to KLOVE for spiritual enrichment, healing, and prayer. What other radio station ministers to those who in need?

Sincerely,

William Pinney
